EDUCATION

NATIONAL UNIVERSITY OF SINGAPORE (NUS)

Aug 2024 - May 2028

Bachelor of Engineering, Computer Engineering

- Current GPA: 4.54

WORK EXPERIENCE

NUS Fintech Society, Machine Learning Trainee

Aug 2025 - Present

- Attending weekly training lectures covering foundational and advanced Machine Learning concepts, including EDA, Feature engineering, and Model evaluation.
- Gaining practical experience in supervised learning, unsupervised learning, and deep learning through hands-on labs.
- Participate in bi-weekly presentations with Training Heads to reinforce understanding of key algorithms and libraries.

PROJECTS

NUS Schedule Boss - Orbital 2025 Apollo 11, Full Stack Developer

May 2025 - Jul 2025

- Developed a dynamic module management system with real-time search and interactive timetable visualisation, improving student schedule planning efficiency.
- Integrated an AI-powered chatbot (open ai API) with persistent MongoDB history to arrange modules via natural language and fetch Reddit-based course reviews.
- Engineered a full-stack React + Node.js/Express + MongoDB solution with personalised timetables and contextual reminder notifications.
- Project documentation: [Documentation](#).
- Website live at: [Website](#).
- Tech Stack: MongoDB, Express.js, React, Node.js, open ai API, Supabase, Reddit API.

mRNA Classification, Data Analyst and Machine Learning Engineer

Oct 2025 - Nov 2025

- Built an mRNA classification system to distinguish mRNA from non-mRNA sequences and reduce dependence on manual lab-based methods.
- Engineered features such as ORF length, GC content, entropy, nucleotide composition, and k-mer frequencies, and evaluated LR, RF, CNN, and LSTM models.
- Achieving 96.4% MCC and 0.999 ROC-AUC for Random Forest model.
- Project documentation: [Documentation](#).
- Github repository: [Code](#)
- Tech stack: Matplotlib, Scikit-Learn, TensorFlow, Numpy.

LEADERSHIP EXPERIENCE

Vietnamese Youth Alliance in Singapore, Web Developer & Logistics Coordinator

Oct 2024 - Sep 2025

- Led "Singapore Study Dream 2024" seminar (150+ attendees), partnering with 8 top universities and connecting 50 mentees with 40 mentors.
- Coordinated Career Fair 2025 logistics, engaging 100+ Vietnamese students in Singapore.

- Built user-friendly landing pages for major events, improving participant engagement and streamlining event coordination processes.
- Organisation's website live at: [Website](#).

ADDITIONAL SKILLS

- Programming: C++ (Intermediate), Python (Intermediate), JavaScript (Intermediate), Java (Beginner)
- Web Development: React, Node.js, Express, MongoDB, HTML/CSS
- AI & APIs: open ai API, TensorFlow, PyTorch, Keras, Pandas, NumPy, Matplotlib
- Technical Knowledge: Full-stack development, database design, agent-based AI
- Languages: Vietnamese (Native), English (Fluent), Mandarin (Intermediate)
